

C30C/C30A

Basic systems 30 Watt

C-series products, CO₂ vector lasers for industrial use, are available for high-quality laser marking. Mark your products permanently and flexibly, either while stationary or during movement of the product (MOTF), and you benefit from innovative technology from a single source.

Advantages

- Designed for high line speeds (=short cycle times)
- Minimal servicing and maintenance costs
- Windows-based operator interface with graphics preview
- Ultra-easy integration in production plants and open interfaces
